

JUNG

GRAPHITE BLACK.
SNOW WHITE.

PURE MATT.

MADE IN GERMANY SINCE 1912

INTENSIVE. EXTENSIVE. ELEMENTARY.

With new matt finishes, JUNG creates elegant surfaces that aesthetically enhance the LS 990, LS CUBE, LS ZERO, LS 1912, A 550 and A FLOW ranges.

Graphite black
The new black
for impressive scenes.

Black absorbs the light. Switches and sockets in velvety matt graphite black impressively set the scene for dark walls. Pure black as statement.

LS 990

Timelessly elegant – for over 50 years, LS 990 has been enthralling with its clear design language and aesthetics. The classic is now available in matt graphite black. LS 990 thus provides an additional design option in interior design.

LS ZERO is the flush-mounted version of the JUNG classic. The flowing transitions between switches, sockets and wall surfaces create high-quality aesthetics. LS ZERO in graphite black is a new statement in colour design.

LS ZERO

With LS CUBE, the LS 990 design classic can be installed strikingly on exposed concrete, masonry and natural stone. The perfect solution in all areas where surface mounting is deliberately desired. LS CUBE in graphite black sets special accents.

LS CUBE

The toggle switch LS 912 is an homage to the innovative strength of JUNG. Purist design meets contemporary technology and gives the switch a new feel: LS 912 in graphite black with cylindrical toggle lever.

The LS 1912 toggle switch unifies a classic switch with the technical demands of today. The feel and mechanics lend the toggle switch a particular charm: LS 912 in graphite black with a cone-shaped toggle lever.

LS 1912

The concentration on the essentials characterises the striking design of A 550. The new graphite black emphasises the straight lines and clear geometry.

A 550

The edge radius gives A FLOW a dynamism that harmonises with a wide variety of furnishing styles. Graphite black inspires not only visually but also haptically.

A FLOW

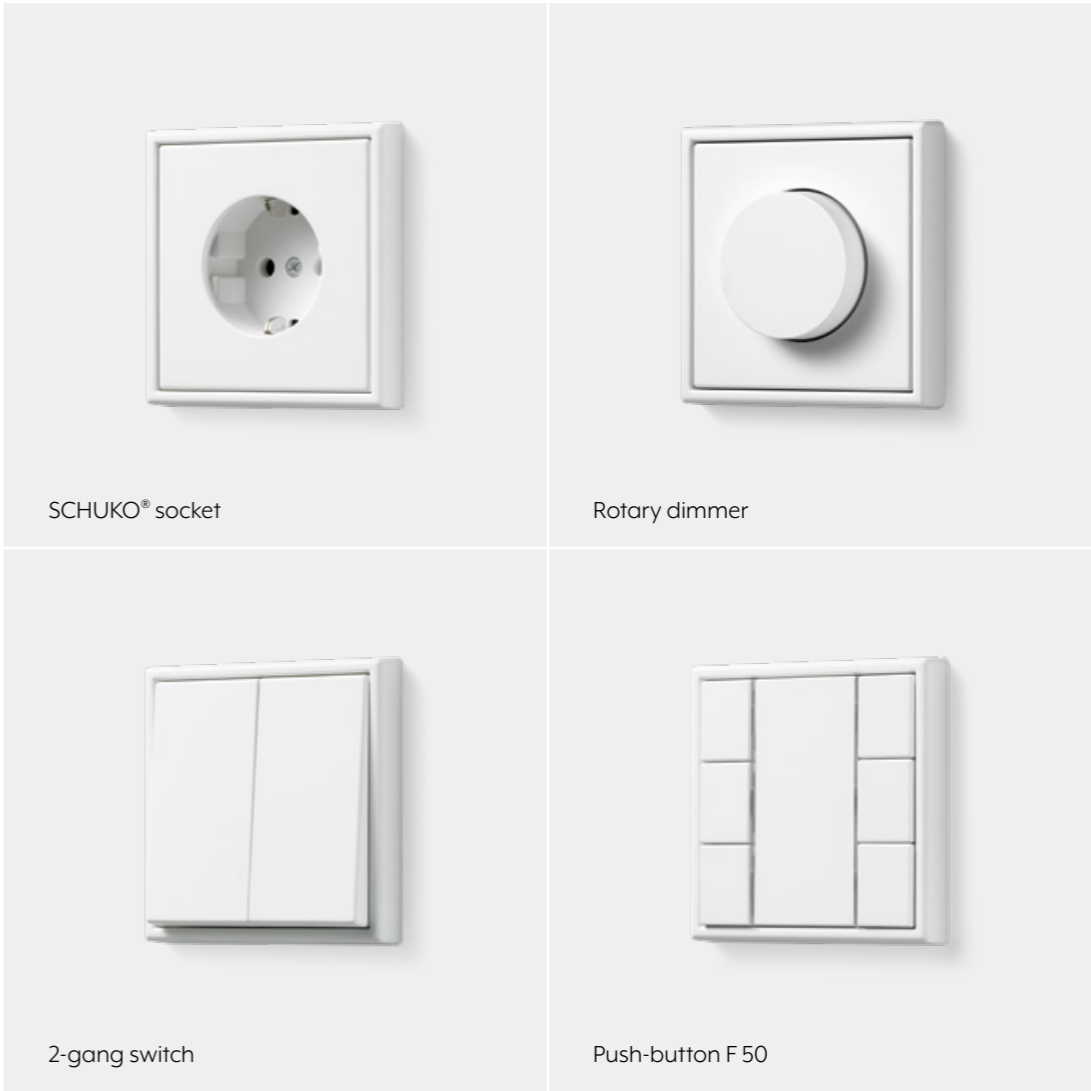

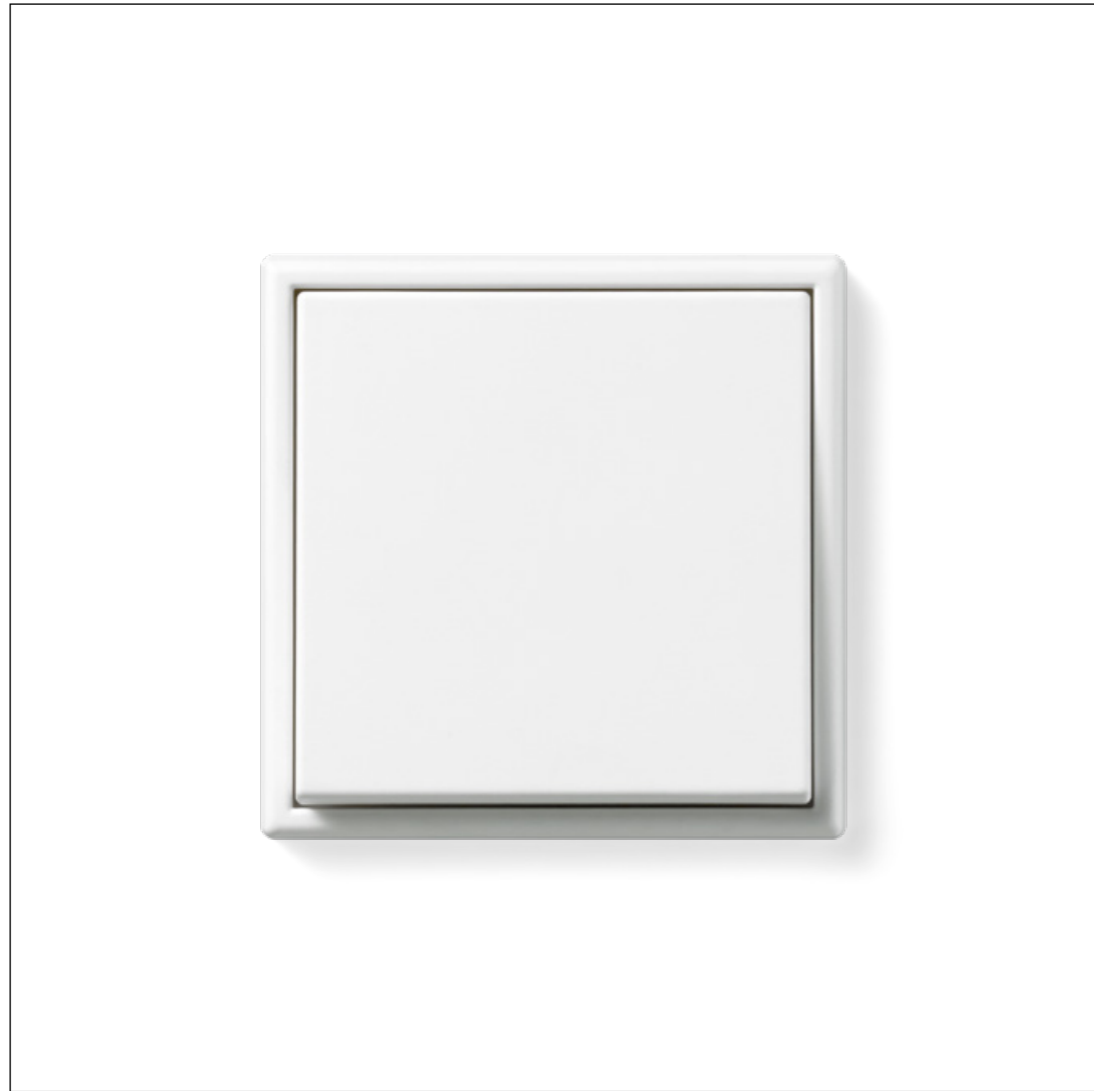

INTENSIVE. EXTENSIVE. ELEMENTARY.

With new matt finishes, JUNG creates elegant surfaces that aesthetically enhance the LS 990, LS CUBE, LS ZERO, LS 1912, A 550 and A FLOW ranges.

Snow white
The new white for
puristic interior designs.

White reflects the light. Elegant matt snow white allows push-buttons and sockets to harmonise perfectly with various wall structures. Pure white as understatement.

SCHUKO® socket

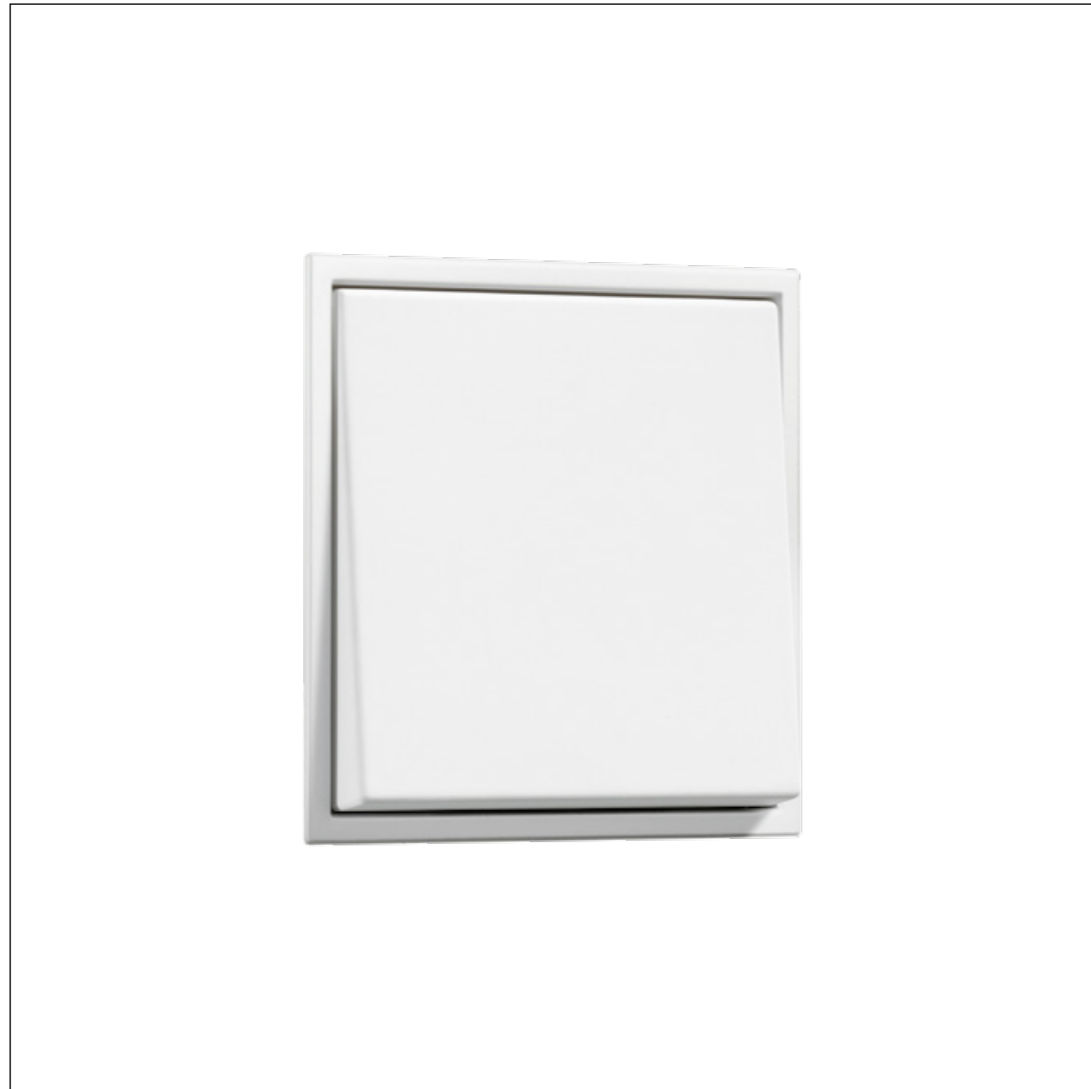

Rotary dimmer

2-gang switch

Push-button F 50

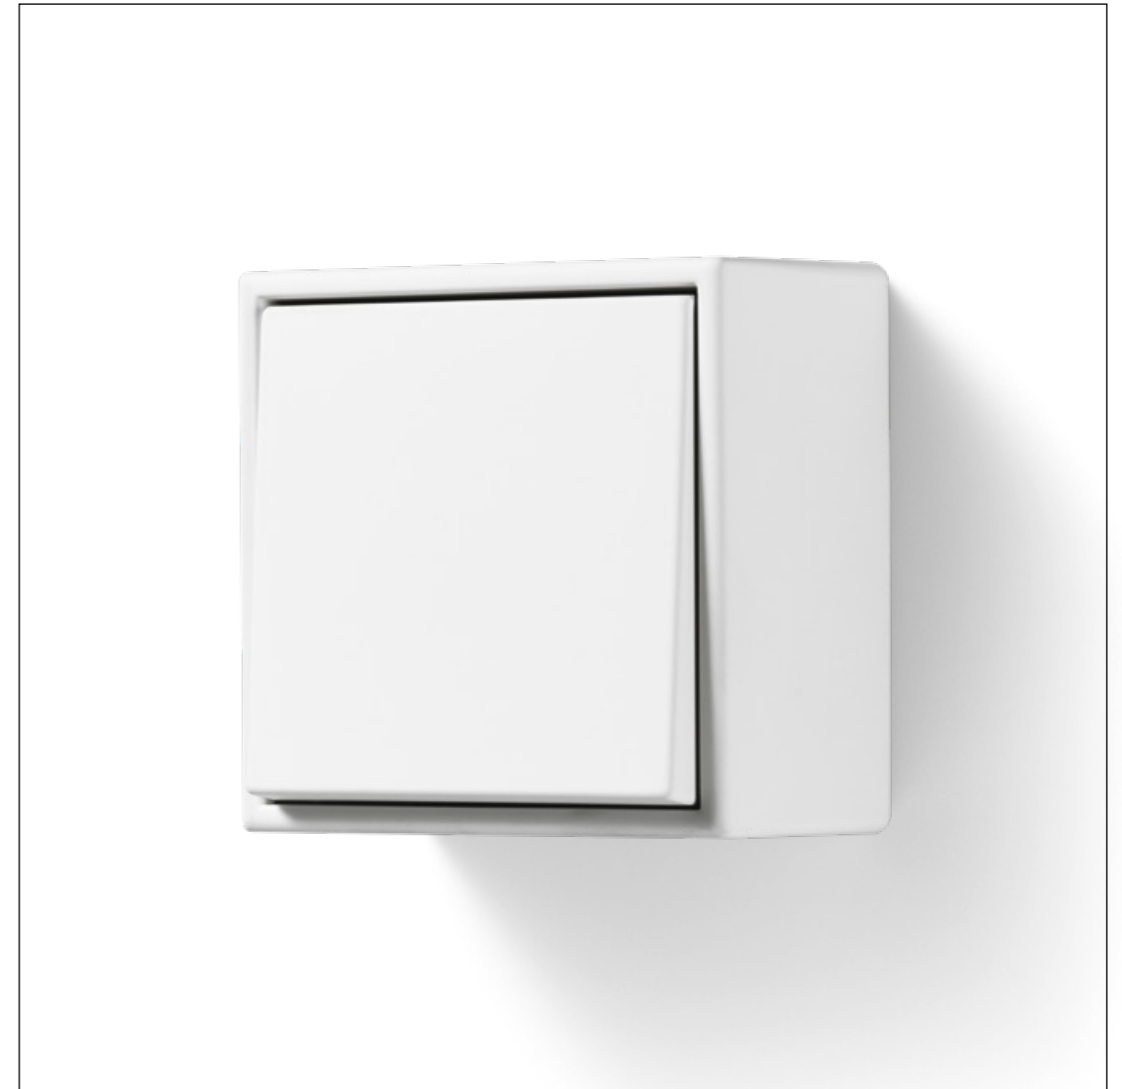

LS 990

Timelessly elegant – for over 50 years, LS 990 has been enthralling with its clear design language and aesthetics. The classic is now available in matt snow white. LS 990 thus provides an additional design option in interior design.

LS ZERO is the flush-mounted version of the JUNG classic. The flowing transitions between switches, sockets and wall surfaces create high-quality aesthetics. LS ZERO in snow white is a new statement in colour design.

LS ZERO

With LS CUBE, the LS 990 design classic can be installed strikingly on exposed concrete, masonry and natural stone. The perfect solution in all areas where surface mounting is deliberately desired. LS CUBE in snow white sets special accents.

LS CUBE

The toggle switch LS 912 is an homage to the innovative strength of JUNG. Purist design meets contemporary technology and gives the switch a new feel: LS 912 in snow white with cylindrical toggle lever.

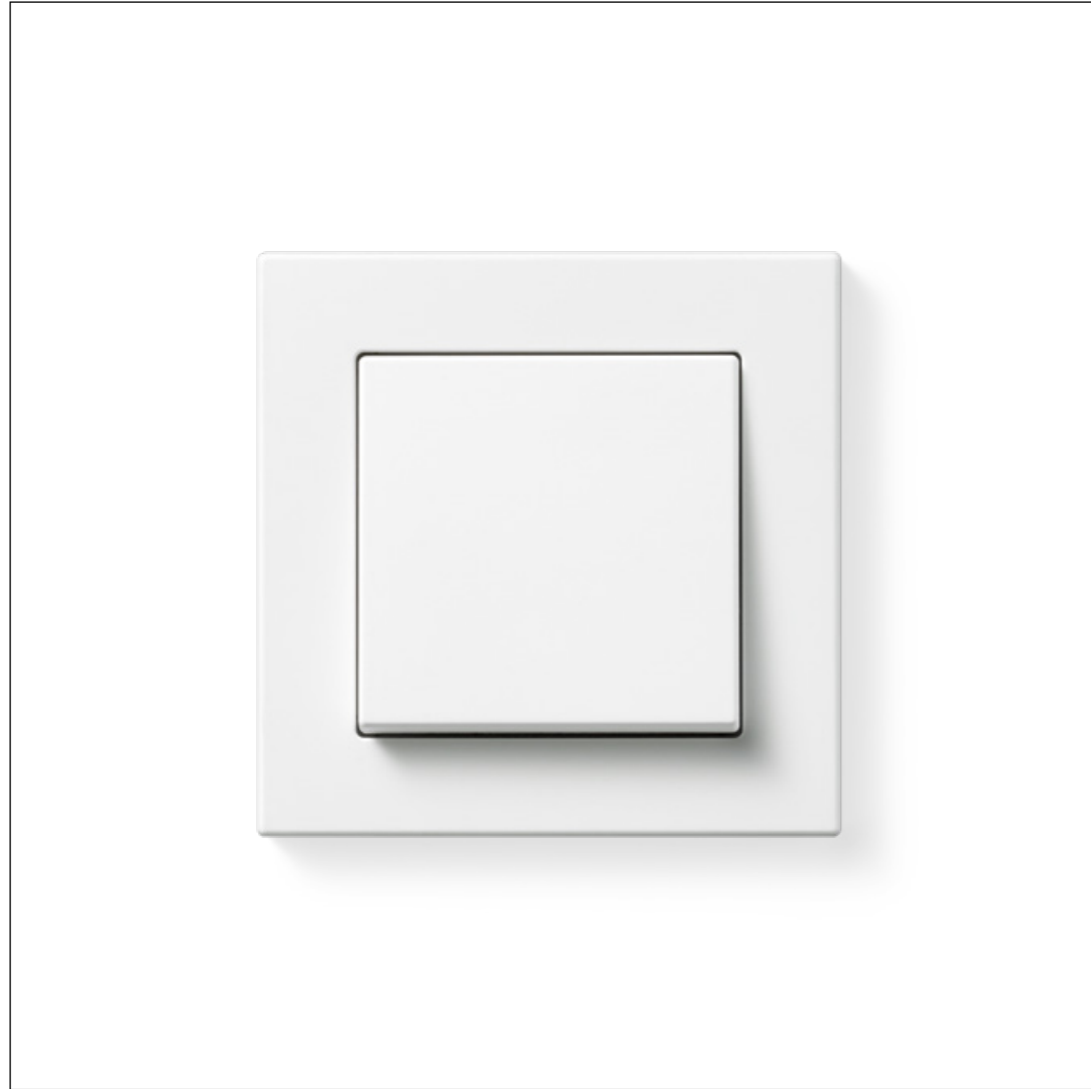

The LS 1912 toggle switch unifies a classic switch with the technical demands of today. The feel and mechanics lend the toggle switch a particular charm: LS 1912 in snow white with a cone-shaped toggle lever.

LS 1912

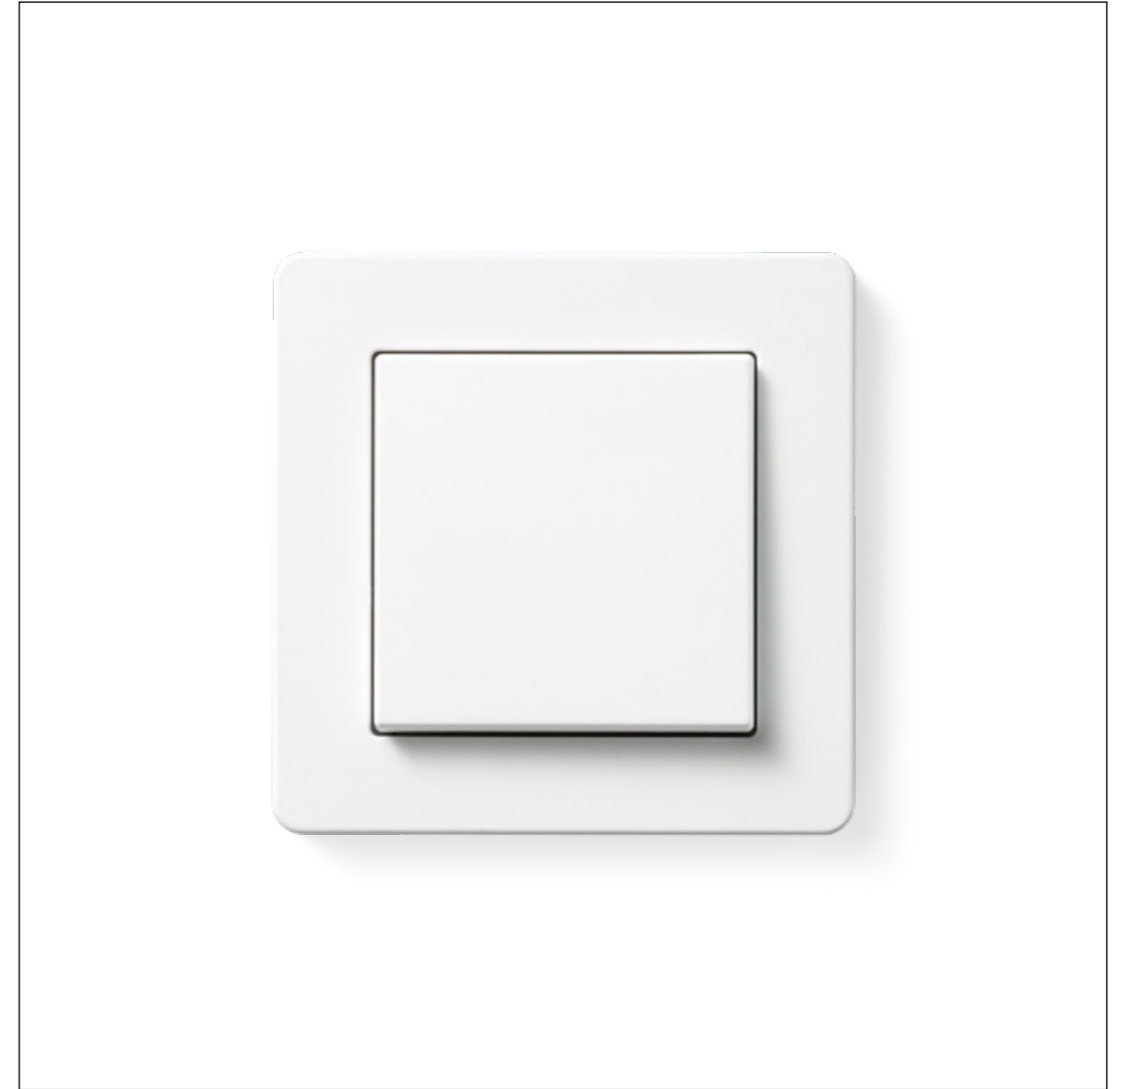

The concentration on the essentials characterises the striking design of A 550. The new snow white emphasises the straight lines and clear geometry.

A 550

The edge radius gives A FLOW a dynamism that harmonises with a wide variety of furnishing styles. Snow white inspires not only visually but also haptically.
